RUSSIAN DIPLOMAT WARNS NON-INTERVENTIONISTS

# Mussolini Speaks Of Vengeance to Come

LONDON, MARCH 23. AT AN EXCITED SESSION OF THE NON-INTERVENTION SUB-COMMITTEE HERE TO-DAY THE RUSSIAN REPRESENTATIVE, M. IVAN M MAISKY, WARNED THE ASSEMBLAGE THAT THE ITALIAN ATTITUDE IN THE SPANISH CIVIL WAR "IMPERILS THE PEACE OF ALL EUROPE."

Simultaneously, it was learned from Rome that a spokesman of the Japanese Embassy had stated that an political accord would shortly be Italian-Japanese reached.

Meanwhile, Britain investigated the report of the landing of Italian—volunteers—at Cadiz—on-March—5, afortnight after the ban on intervention came into force. The British note to Rome in this connection has been answered, the Italians maintaining that the men landed on this occasion consisted only of doctors and helpers, with medical supplies, without arms or volunteer fighters with them

Independent British inquiries tend to confirm the Italian statement.

After the meeting of the Non-1 Intervention Committee this morning, Signor Dino Grandi, the Italian Ambassador, intimated that his Government was unwilling to discuss at present the question of the withdrawal of volunteers from Spain.

### Plymouth: Concerned

Lord Plymouth, chairman of the Committee, declared that a serious situation was thus created and that he would have to refer the matter to his Government.

The extension of the Non-Intervention agreement to secure the cooperation of non-European countries will engage the early attention of the Committee, according to a communique issued dealing with today's proceedings. - Reuter and United Press.

# BOSUN SAVES ALL ABOARD H.K. SHIP

# Climbs to Cliff Edge From Wreck By Bridge Of Oars

(By A Staff Representative)

Survivors of the wrecked Indo-China Steam Na vigation Company's steamer Hopsang, which was totally wrecked off the southern tip of Formosa, have arrived in Hongkong. They owe their lives to the Chinese bosun.

Early this morning they told me story of their re markable escape from death.

The Hopsang went ashore in a blinding rainstorm in a Japanese prohibited area, about 15 miles from Koshun. When it grounded on jagged rocks, the bows of the ship were less than 15 feet from the wall of a towering mountainous precipice. But between the ship and safety was a white maelstrom of churning water, in which no-one could possibly have lived.

Heavy seas continually broke over the doomed vessel and it seemed likely that the entire crew of 72—including eight British officers and engineers—would have to remain aboard. But as the heavy seas continued to pound the vessel a des-

perate plan was resolved upon. Several oars were lashed together to provide a bridge between the ship and a ledge on the precipice.

The hawser was secured to the mountain-side and then, one by one, the crew of the wrecked Hopsang swung hand over hand to the shore. (Continued on Page 14.)

# Be Vulnerable To Air Raids

# Does Japanese Power Constitute Menace?

By STAFF REPRESENTATIVE

Although Hongkong's greatest mimic war has ended, nothing much is known about the actual results.

Official communique, issued daily by Military Headquarters, have told of the progress of the "battles," but the summing-up of the entire operations remains a closely guarded secret.

It seems evident, however, that weaknesses in Hongkong's defences against attack from the air have been revealed as a result of the manoeuvres.

"Hostile" bombers made repeated attacks on the Colony, and although many were "brought down," it is significant that the authorities admitted several successes by the attackers.

### SCHEMED TO KILL ADOPTED MOTHER

### JURY ASKED FOR MERCY

Condemned to die at the February Criminal Sessions for the murder of his adopted mother, Wong Fat-chi, 80, paid the extreme penalty by hanging at the Victoria Gaol in the early hours of this morning, despite the jury's strong recommenda-

tion for mercy. At the trial, it was disclosed that Wong, who was at one time employed at the Taipo Magistracy, took part in a conspiracy to murder his wealthy adopted mother, Li Kam-yin, by allowing his brother-in-law, who has not been arrested, to enter her home in the middle of the night for the purpose of robbery. During the raid

the woman was strangled. After the crime, Wong went to the Taipo Police Station where he reported that his house had been visited by several robbers, but subsequent investigations revealed that he was one of the participants.

The case was tried by the Chief Justice, Sir Atholi MacGregor, the following jury: Messrs. E. C. Norris (Foreman), Pong Liu-kam, L. G. Souza, J. K. R. MacGregor, R. K. Pavri, L. S. Silva and D. N. Parsons. Mr. E. H. Williams, Assistant Attorney-General, conducted the prosecution, and accused was defended by Mr. D. J. N. Anderson, on the instructions of Mr. D. S. Curtis, of Messrs. Woo and Woo.

The purpose of the nertal exercises were, presumably, to test Hongkong's defences from an attack by enemy bombers. Because of its geographical position; Hongkong need fear attack from only two nations-Japan and China. Relations with both countries are at present on a friendly basis. although recent "incidents" have somewhat strained the friendliness that existed between Hongkon and Japan.

Much significance must therefore attach to an article recently published throughout the United States regarding Japan's "southward drive." Mr. Wood, a United Press Staff Correspondent, makes remarkable allegations regarding Japan's fortification and strengthening of the garrisons in Formosa, even before the Washington Treaty, which debarred

VERY good little girl used to spend part of each day sitting at the sampler.

Nowadays samplers are more fun. There's less business about getting down a record of all the embroidery you know.

For this the background should be left plain and the picture part filled in with cross stitch. (Always minding, Mary Jane, that the crossings go over the same way—all the verticals first, or all the horizontals).

Or the design can be done on a much larger scale in wool cross stitch on canvas for a fire screen. or something that needs a big.

# Who Rule World's Richest Market: Behind The Boom in Diamonds £8,000,000,

TWO men sitting in a room in London control the most powerful monopoly in the world—the diamond market.

Recently I heard the romantic story of Diamond Corporation — and why diamond shares are in strong demand just now on the Stock Exchange.

An Italian Critic COMPARISON OF **ESTIMATES** 

Rome, Mar. 10.

Signor Gayda, in the Giornale d'Italia to-night, criticises the armament programmes of England, America, and France as a symbol of armed democracy, against presumably the peaceful behaviour of Fascism. For the peace of the world evidently it is only the clive branch of the Fascist States which may rise from a forest of bayonets.

Estimates for Italy's war preparedness, however, reveal that Italy intends to continue girding itself against all possibilities.

"Here in Scotland," said Johnnie Walker, "we don't marry the 'single' or separate whiskies until they have matured for long years in the

### SPLENDID FILM COMING

### "Lloyd's of London" Soon Due

One of the finest films ever to come to Hongkong is to be shown the Queen's and Alhambra Theatres from Saturday next, March 27. It is "Lloyd's of London," which has won high praise from film critics in all parts of the world.

In a review of the film, a contributor to the North China Daily News says of it:-"Britons cannot complain that Hollywood has once again stolen a chapter from English history and produced it against an American background, as all the players except Mr. Tyrone Power, admittedly the leading man, are British. And one forgets his slightly different accent in his portrayal of a sterling character—one of the men who helped to lay the solid foundations of the famous British institution. Opening in a Norfolk fishing village, where two youths named Horatlo Nelson and Jonathan Blake schoolmates together, the story proceeds almost too quickly to where one is a British admiral and the other one of the foremost members of Lloyd's. The film works up to a superb climax in which Blake, after spending many embittered years following an unfortunate love affair, proves that he has not in the least forgotten the true principles upon which Lloyd's was founded.

### BRITISH YOUTH TOO SOFT?

(Continued from Page 6.)

more than our social ser-

vices." Service to the State

The more virile peoples to which Major Rayner referred exist on the Continent of Europe.

The young men of Germany, of Italy, of Russia, of Poland, of Czechoslovakia, are not only strong and healthy physically; they are also mentally poised and alert. They are imbued with a vitality that has to be seen to be fully realised; and they are proud and determined, and full of a faith in themselves and in their country and their leaders. Their first duty and their pre-eminent desire is to serve the State, not to demand "rights" and privileges from the State.

They give; they do not grab. You may call them mystics, fanatics, fools, dupes-anything you like. But do not forget that it was a similar spirit which animated the Elizabethan age and all those later cras when British men went forth to find new lands, new adventures, new wealth, new homes.

There was more lave of country and pride of birth in the poorest emigrant who endured hardship in a "coffin ship" and yet more hardship after he landed in Canada or Australia, South Africa or New Zealand, than there is in the bulk of the young men of to-day who demand that the State should do everything for them because "they did not ask to be born into an over-populated country."

On the same day when Major Rayner spoke in the House of Commons, a member on the other side of the House said:- "We cannot give young people hard physical training without looking after their bodily welfare, without giving them a chance to be healthy and well."

That is a typical statement of our generation. Feed and clothe and doctor the young people, and then, perhaps, they will condescend to do physical training to keep themselves

The physical training, you will notice, must be voluntary; the rest, performed by the State, must be compulsory.

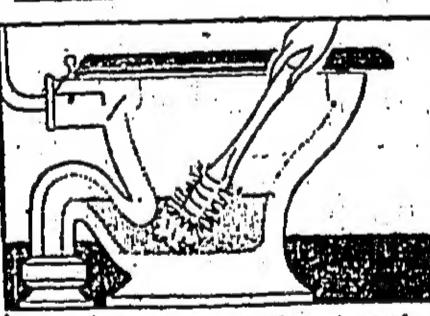

Spiritual Pride

In the Continental countries I have mentioned the young people gindly and willingly volunteer for labour camps and such like. There they get all that our young folk demand, but they give much in return. And they and the State benefit. Waste land is reclaimed, roads are built, crops are grown and harvest-The people are made fit in mind and body. They are not spoon-

Compare any man who lives on (no matter how it is disguised) with one who carns his keep and a bit over, and you will see

Man does not live by bread alone. He is a spiritual being. He should be full of that spiritual pride which only self-esteem can create. That spiritual pride is to-day the possession of Continental youth. It is lacking in the youth of this country.

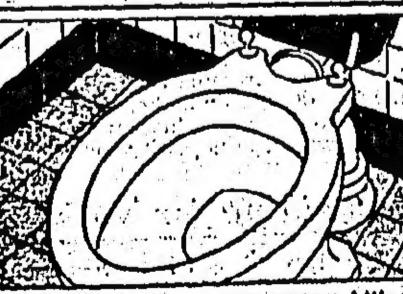

That is my challenge to the modern youth of Great Britain.

DON'T DO THIS - a brush can't reach the bend in the pipe; so it can't possibly clean the lavatory-pan properly.

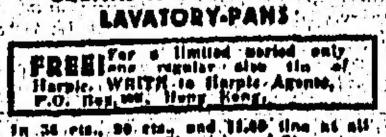

JUST THIS REGULAR SPRINKLE OF Harpic cleans and disinfects the lavatory-pan thoroughly - removes the cause of odours - and does the job a thousand times more easily.

ITS STRONG DISINFECTANT ACTION KILLS the dangerous germs and leaves the lavatory-pan clean, white and sanitary -all without labour.

MARKET UPWARD YESTERDAY

New York, Mar. 23. S. C. &. F. Dow Jones Summary of yesterday's markets:-There was sharp technical recovery, after prices had declined in nine out of ten sessions. The Industrial Average recouped more than 2 points, while the Rail and Utility Averages also advanced. The list advanced from 1 to 4 points on short-covering and new buying. Trading was light throughout the day, but increased in the latter part of the afternoon. Steels were strong. Non-ferrous metals resumed their rise, led by Anaconda. Motors were strong. Oils, form equipments and mail-orders were well bought. Stocks on thu Curb Exchange were higher. Bonds were irregularly higher, with United States Government issues also

CHILDREN aren't naturally cruci — but they have a ruthless way of saying what they think. Has your boy a nickname which hurts his pride?

Remember this. As long as he has enough energy he can hold the respect of his small but important world. The danger comes when the strain of growing makes ever-increasing demands on his energy. That's when he needs extra nourishment.

Regular Horlick's, at mid-morning and sup-per-time, gives growing children the nourishment and energy they need. Plain or Chocolate-Flavoured, it keeps them lively and alert. It's economical — just add water — the milk is in it. W. B. Sherley & Co., 20 Queen's Road Central, Hongkong

### COAL MINES PROBLEM

Although the British Government recently registered its dis-approval of a Labour plan for the reorganisation of the coal industry under public ownership and control, it has been disclosed that very far-reaching plans are under consideration for dealing with one of Britain's major industrial problems. Low considerable criticism for failing footing.—In-spite-of-a-subsidy of no less than £23,000,000 granted in 1925 and of the wide powers granted for the control of output and the fixing of minimum wages five years later, very little has been done to cut out the wasteful competition between owners and to evolve a real plan of reorganisation. The Labour proposals are that the industry should be organised into one unit under the name of the Coal Corporation which would control the production, selling, marketing and treatment of coal. The Corporation would establish a Coal Marketing Board and a Food Consumers' Council, and would also have power to establish coal treatment plant so that clear and definite plans for coal utilisation might be systematically worked out for the country as a whole. The whole process from the hewing of coal to the manufacture of petrol is envisaged as one industry in which the profits would be equally distributed. It is also proposed to set up a Mines Compensation Commission, under which compensation to be paid to coal-owners would be the "fair value" on the appointed day, whereas compensation to royalty owners would be a sum counts paid or payable to such owners in respect of such rights during the count of the coun respect of such rights during greatest possible number the two years ending on the ap throughout the country. Whether the less coal-owners who had put nothing the less coal-owners. Whether the less coal-owners with both our points at once.

The demand of the modern youth is for his "rights." From the State downwards everybody must do something for him. That would not be entitled to the same compensation as coal-owners. Whether the less with both our points at once.

### Packet Of Surprises For His Subjects

DOES King George VI come to the Throne with less powers than those enjoyed by any monarch in English history? Some people have not hesitated to point out that the Cabinet -and not the House of Commons-is now the supreme power in this country. At the same time these people forget that the Crown, now personified by George VI, still possesses immense powers, should the monarch care to exercise them.

The Rifles should win, but they cannot take the Police lightly.

Navy entertain St. Joseph's at Causeway Bay and this should turn out to be a first-rate encounter. Navy should at least draw.

A number of second and third division games are also being played as part of the H.K.F.A. drive to get league fixtures up to date.

Other sportings activities to-day include St. Paul's College sports at Caroline Hill and a hockey match between the Hongkong Hockey Club and Royal Engineers on the U.S.R.C.

To-day's football programme is as

course of Hul's first recovery, Wong found the shuttle to be too fast and had it changed. For a brief while Hul lost control, but he came back stronger than ever and in a wonder-ful burst carried the game at 15-12.

Wong carefully built up a sub-stantial lead of four-love in the final game and from that point never looked back. Hul fought him tooth and nail for every point and actually service changed hands three or four times before Wong consolidated. Then the end came quickly, but it was a fitting conclusion to a fine en-

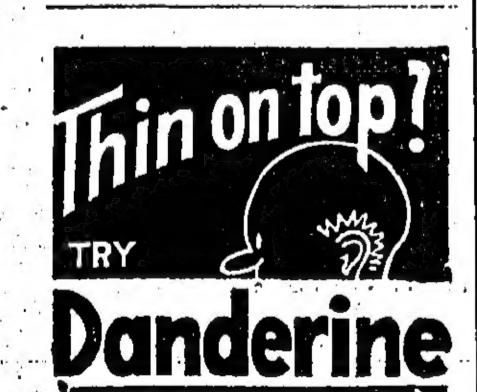

### CRICKET RE-PLAY

### Club And Indians Meet Un April 10

After much deliberation, it has been decided that the re-play between the Hongkong Cricket Club, and the In dian Recreation Club for the champlonship of the Cricket League shall be held on the Hongkong ground on Saturday, April 10. There is to be no extension of time, play to begin at 2 p.m. and finish at 6.15, as per ed. League rules for April.

The ordinary plan that a play-off should be staged on a neutral ground was not utilised in this case as both the Kowloon C. C. ground and Recreio, obvious venues, are so far away that a start prompt on time at either eight place cannot be assured. The Indians have no objection to playing on the H.K.C.C. ground, and in fact suggested

This decision to slick to ordinary League hours of play makes\_another draw not unlikely.

# SKATING TITLE

London, Mar. 2. At the end of the compulsory figures in the women's world figureskating championship, which began at the Empress Stadium, Earl's Court, yesterday, two sixteen-year-old British girls held the first two places. Miss Cecilia Colledge, British and European champion and favourite for the world's title, with a total of 1,498.7 marks, was 19.7 points in front of Miss Megan Taylor, of Manchester. Frk. Vivi-Anne Hulten, of Sweden. was third, with 1,419,9 marks.

Although not so spectacular to watch, the compulsory figures are the most important part of the championiship, for they provide two-thirds of a competitor's final score.

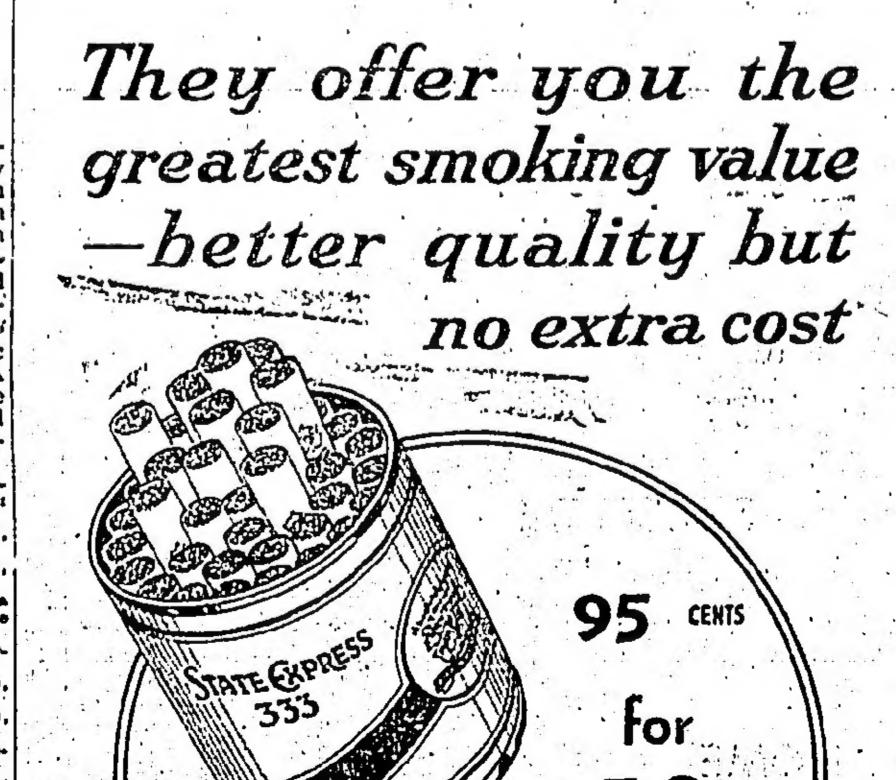

### MAXIMUM SCORED

The standard of skating was very high and the maximum of six marks was closely approached on many occasions. Miss Colledge accomplished a rare performance when, after exccuting a loop-change-loop; one judge held up the number six. This was the only time during the day that maximum points were given to any skater, although both Miss Colledge and Miss Taylor had 5.9.

Miss-Colledge, neatly attired in black, executed her figures with a very serious air. The rink presented a picturesque scene as the gailycostumed competitors, some of whom appeared in outfits of striking design, practised on nearby ice while, awaiting their turn to perform before the seven judges, each of different nationality. There were two sessions, both well attended. Placings:

1. Miss Cecilia Colledge (G.B.), 1,498.7 marks.
2. Miss Megan Taylor (G.B.), 1,479.0.
3. Frk. Vivi-Anne Hulten (Sweden), 1,419.9.
4. Frl. Emmy Pusinger (Austria), 1.383.9.
5. Mile, Hedy Stenuf (France), 1,578.7.
6. Frl. Viktoria Lindpaintner (Germany).

7, Fri. Hanne Niernberger (Austria), 1.354.5. 8. Mias B. Jepson-Turner (G.B.), 1,383.7, 9. Miss Gladys Jagger (G.U.), 1,324.1. 10. Frl. Martha Mayerhans (Germany), 1,322.4. 11. Frl. Angela Anderes (Switzerland), 1,320.6. 12. Miss Audrey Peppe (U.S.A.), 1,250.9.

### CINEMA NOTES

As gay and merry a comedy as you could wish to see commences at the Queen's Theatre to-day in "Let's Make a Million," a story of one man's bonus and how it grew, with Edward Everett Horton as the vet, and charming Charlotte Wynters as the girl he intended to marry—without reckoning with the "pixilated" sisters. To Horton, a typical small-town business man in a typical American small town, the bonus is nothing short of a godsend. One of the things he wants to do is to make Miss Wynters his wife. But his maiden aunts, played by Margaret Seddon and Margaret McWade, the famous "pixilated" pair of "Mr. Deeds famous "pixilated" pair of "Mr. Deeds Goes to Town." have other plans for his money. They want him to use it to buy a monument to honour his grandfather, the founder of the town, and when he baulks they resort to convenient faints and the other tricks which made them famous. Porter Hall, one of the finest villains over created by films, his on hand again with new villainy in this film. His confederate is played by Purnell Pratt. J. M. Kerrigan, famous Irish character player, is also in the cast.
"Sinner Take All"

The most famous newspaper "copy desk" ever assembled appears in the newspaper office set of "Sinner Take All," which comes to the King's Theatre to-day. It was composed of noted screen writers and producers who started their careers as newspapermen. The former scribes who served on the picture copy desk included J. K. McGuinness, formerly of the New York Sun and scenarist of "China Seas" and other pictures, now a producer; Bayard Veiller, veteran playwright, author of "The Thirteenth Chair," "The Trail of Mary Dugan" and other hits, and formerly on The World, Herald-Tribune and Evening Sun in New York; Bartlett Cormack, currently at work on the script of "The Foundry" and once a reporter on the Chicago American. Also Herman J. Mankiewicz, formerly of the New York World and Times, and scenarist of "Escapade" and "Stam-boul Quest;" Michael Fessier, coproducer of "Women Are Trouble" and scenarist of "Society Doctor," formerly of the San Francisco Chronicle: Frank Dolan, formerly of the New York Daily News and now scenarising "To the Visitor;" and Lawrence Kimble, scenarist of "His Back Against—the Wall" and "All American Chump," formerly of the San Francisco Examiner.

Double Attraction at the Oriental Manager Hugo is offering his patrons an. extra variety show in conjunction with a magnificent screen attraction for Friday and Saturday. On the stage the famous five Gaetano girls who have meet with such great success at the Gloucester hotel for the past month will present at all performances their vaudeville entertainment of songs and whirl-wind dances that is far superior to anything yet offered in the Far East. On the screen George O'Brien with a thousand others will be seen in a big thrilling adventure picture "Daniel Boone." This is the story of the greatest exploit of our greatest frontiersman, who, in the person of George O'Brien, verily seems to live and breathe again on the screen. Yielding a valuable and highly entertaining picture of the times and the trials of Colonial America in the late seventeen seventies, the photoplay also affords a tender romance in the story of the love of Daniel Boone for Virginia Randolph, daughter of a patrician settler who followed the great leader. Authentic in its reproductions of historic scenes, correct in its costuming and technical investi-ture, "Daniel Boone" is a film to be welcomed. Supporting its star are Heather Angel, John Garradine, Ralph Forbes, Clarence Muse and other well-accredited players.
"Murder at the Vanities"

Providing an entertaining combination of mystery and music, Para-mount's production of Earl Carroll's "Murder at the Vanities" comes to the Majestic Theatre to-day. The story deals with the opening night of a "Vanities" production. A strange woman is mysteriously murdered, and a short time later one of the principals drops dead on the stage. The entire action takes place backstage, and the story covers just a three-hour period. In the cast are Jack Oakie, Victor McLaglen and Gertrude Michael, who are well known to screen fans, and who perform in their customarily effective style. Three newcomers are introduced with outstanding results. They are Carl Brisson, brought from England for the picture; Kitty Carlisle, star of New York operettas; and Dorothy Stick-ney, Broadway stage star. "Along Came Love"

Simple, tender and "sweet" is the fast-moving homespun romance of ordinary folks, "Along Came Love" which opens at the Alhambra Theatre. to-day. Dealing with the love of a highly romantic shopgirl and a serious young medical student who is earning his way as a theatre doorman, this film is a refreshing departure from high society, intrigue, sophistication and dazzle and as such is excellent entertainment for all theatre-goers. "Along Came Love" is a comedy of a girl who lives in her dreams, played by Irene Hervey, who is in quest of the man who has all the virtues and attributes of the ancient Orion. She finds -him in the student, Charles Starrett, and their love blooms until they are faced with H. B. Warner, Bernadene Hayes, and Louise Latimer, the two welcome a dilemma caused by a scandal when Ferdinand Gottschalk and Charles recruits from the New York stage; are the girl's mother Irene Franklin, a Judels. burlesque performer, is arrested. Also in the cast are Doris Kenyon, march of crime. Owen Davis, Jr., excellence.

# 100,000, REFUGEES ON FLIGHT FROM TERROR OF MALAGA

### EYE-WITNESS TELLS OF HORROR

The bombing of Almeria, Spain, and the terrible 100-mile flight of 100,000 refugees from besieged Malaga before it fell to the Spanish rebals are described vividly in the following despatch written exclusively for the United Press by the first witness of both events to come out of the war zone. He is Dr. Norman Bethune, Montreal surgeon and head of the Spanish-American Blood Transfusion Institute in Madrid. By Dr. Norman Bethune

Paris, Mar. 5. One hundred thousand refugees fled Malaga to Almeria, Spain, only to be bombed by rebel planes in an

attack that was, in my opinion, a deliberate attempt to

slaughter a defenceless population.
As if the terrible torture of their exodus was not enough, they were treated to the most horrible experience conceivable. Ten thousand children under 10 years old had been removed from Malaga. Hundreds died from hunger and cold during the long flight. Thousands crept forward ahead of a fleeing army with bloody rags on their feet.

## DENTIFRICE MOUTH

On your brush Vince looks and is used like any other dentifrice. But in your mouth in contact with moisture, thousands of tiny bubbles of oxygen are released in a pleasant, antiseptic cleansing action which reaches every part of your mouth.

For a mouth wash and gargle, about a teaspoonful of Vince is placed in a glass of lukewarm water. Rinsing the mouth vigorously and gargling withthis solution aids in clearing away accumulations of sticky mucus and the fine bubbles of oxygen act as a deodorizing agent, leaving the mouth in truly clean, sweet and hygienic condition.

### NEW FILM SERIAL "TELEGRAPH'S"

"Lloyd's of London" is a film which is shortly to be presented at the Queen's Theatre. To-day appears another instalment of the full story of the episodes in the life of the great corporation on which the film is based. It is a narrative of much interest in itself and is appropriately made public at a time when the presentation of the film in Hongkong is soon to be made,

Jonathan Blake, daring young member of Lloyds of London, innurance syndicate, is near bankruptcy as a result of heavy lesses due to sinkings by Napoleon's floot. Beautiful Lady Elizabeth Blacy, in love with Jonathan and about to divorce her wastrol husband, Lord Everett Stacy, throws her inheritance into Jonathan's syndicate. Meanwhile, the members of Jonathan's syndicate all quit except his aged patron, John Angeratein. Those two carry on, with Lady Elizabeth as a ellent partner. Lady Blacy waits the outburst of her husband whon he discovers her move, for she had previously agreed to give him her fortune if he permitted a divorce.

### Chapter Eighteen

ADY Stacy took quite a little delight out of the knowledge that she was the first and only woman member of a Lloyd's underwriting syndicato; she had a thrill when fonathan, having accepted her fi-nancing only on condition that she ndvance the money as an invest-ment instead of as a loan to him. informed her that she now had the power, should her love for him ever turn to hate, to wreck him. The husiness connected with the turning over to her, by the trustees of her father's entate, of the vant inheritance, kept her and her soll-citors so busy that the matter of entering her suit for divorce against Lord Stney was necessarily set exide. Moreover it required conulderable argument and a vast subinission of figures and statistics to convince her solicitors that they could, conscientiously, advise her to make such a huge investment in a pingle enterprise.

After committing herself to sustain Jonathan and John Angerstein in the former's patriotic and ambi-tious plans, Lady Stacy made a dis-turbing discovery. Her fathers os-tate, by far the largest ever left by any testator in England, was largely represented in huge textile mills in Manchester, in ships, raw cotton and manufactured goods. The texthe enterprises were buing carried on by competent managers and me cash accumulating in the hands of the trustees had come from the carnings of the estate since, the death of Elizabeth's father. And the latter had provided for periodical distribution of his estate to his sole heir, so that when the first made to Lady Stacy she was forced in borrow on the remaining three quarters of the inheritance due her, which was to be paid over a period of fifteen years. So she made the first practically on a dois from his wife, of fifteen years. So she made the light heart, fig.

### FREIGHTER REMAINS AGROUND

TAIKOO TUG IS STANDING BY

Attempts by the Talkoo tug last night to refloat the Japanese freighter, Jinkal Maru, which went aground at the north-eastern corner of Waglan Island yesterday afternoon, proved unsuccessful, according to information obtained from the Mitsul Bussan Kaisha, local agents of the steamer, this morning.

The ship, however, is not in danger, and another attempt to dislodge her will be made this morning. The vessel, which is commanded by Capt. R. Koga and has a tonnage of 3,835, was on her way from Milke to Hongkong with a cargo of coal, when she ran aground in heavy fog. She carries a crew of 38, but no casualties have been reported.

The new harbour and aerodromes, details of which are said to be "secret," are numbered amongst the biggest development schemes undertaken in Formosa for many years.

# Battalions For Colony

## SEVERAL SQUADRONS OF R.A.F. BOMBERS EXPECTED SHORTLY

Before the end of this year approximately \$20,000,000 will be spent by Britain in strengthening the defences of Hongkong.

A like sum is to be spent next year.

This huge appropriation is included in the Army Estimates, and is in addition to regular commitments for maintenance of the garrison.

Approximately \$1,000,000 is to be spent on defensive works on the mainland.

Provision is being made, in new constructions, for an increase in the garrison from the present full brigade of infantry (four battalions) to six battalions. It is probable that the first of the new battalions will arrive early next year.

In addition to this huge Army expenditure a record sum is being set aside for Royal Air Force development. It is likely that several squadrons of R.A.F. bombers will be stationed here. The main R.A.F. station will probably be removed from Kai Tak to Kam Ling, in the New Territories, Kai-Tak-being-used-for-civilian-purposes-and-for-R.A.F. seaplanes.

### NEW HEADQUARTERS

Present Army headquarters, which are housed in portion of the old Murray Barracks, are to be removed to a new site at Scandal Point. ### area of Kowloon. WORK STARTING

The sum of \$20,000,000 has been embarked for additional quarters for a full Brigade of Infantry.. The four battalions will be housed in the new cantonment on the outskirts of Kowloon. Work on this cantonment is to commence shortly, and approximately, \$500,000 will be spent on preliminary work this year,

The old Military Hospital in Bowen Road is to be reconstructed and enlarged at a total cost of \$1,000,000 and work on this job will commence in the near future.

New barracks at Stanley Peninsula, which is to become a fortified area, will cost \$750,000 (£38,000). Preliminary work on this accommodution has already commenced.

A total of approximately \$1,000,000 is to be spent on defensive works on the mainland. Most of this money will be spent in constructing new roads, presumably to anti-alreraft positions.

Figures for Royal Air Force expenditure in Hongkong during the next twelve months' are not available, but it is believed that they will greatly exceed anything hitherto spent on aerial defence in the Colony,

Although Hongkong's greatest mimic war has ended, nothing much is known about the actual results.

Official communique, issued daily by Military Headquarters, have told of the progress of the "battles," but the summing-up of the entire operations, remains a closely guarded secret.

## League Of Nations Dead

Geneva, Mar. 10.

The League of Nations virtually is dead as an international political instrument for the preservation of world peace and

the status quo. The great dream of a permanently stable world, as conceived by Woodrow Wilson, has been dissipated by the brutal realism of world political and territorial development.

The league, as an instrument to prevent war and the selzure of territory from weak nations by stronger ones, has failed.

Diplomats made these admissions as they took stock of the league's position and the end of a day making final Paraguay's withdrawal from

Geneva's councils. The little South American republic is one of eight nations to leave the

Optimists, comparing the league's firm principles with those of the Roman catholic church, predicted that it will live as a potent international factor despite its past fai-'All agreed that, although the league has become politically impotent, it will survive as a clearinghouse of economic, cultural and sani-

tary information. Seven countries have served official notice of their intention to quit the league during the 17 years of its history-Brazil, Guatemala, Honduras, Nicaragua, Japan, Germany and Paraguay. Italy walked out without giving official notice and may return if she wishes. The resignations of Brazil, Germany, Japan and Paraguay have become effective.

Paraguay withdrew because the league applied an arms embargo to !t after it refused to accept Geneva's peace proposal in its dispute with Bolivia over the Chaco question. Looking over the league's record of successes and failures, statesmen

counted the following: Four years ago the league assembly condemned Japan's seizure of Manchurin. But speech-making in Geneva did not half the relentless drive of Nipponese soldiers over the plains

of China's "three eastern provinces." Then, in 1932; the disarmoment conference was convoked. It failed to satisfy Germany's claim for rearmament and the conflicting ambitions of the "ins" and outs" in Europe, and so ended in failure.

Later, Germany rearmed despite the Versailles treaty, of which the league is the official guardian, re-- militarized the Rhineland and declared its sovereignty over internationalized rivers. Geneva passed resolutions but did nothing else.

The league's next reversal came over the Chaco dispute. For the first time, Geneva tried to use strong measures against the two little South

American countries. It applied an embarge on both nations. Then, when Bolivia accepted Geneva's peace proposal and Paraguay did not, the embargo was left to apply to Paraguay alone, which

caused its resignation. Before the league's next failure, several minor successes occurred; when King Alexadria of Yugoslavia accused Hungary of inspiring the crime. War became an imminent possibility. But the league quickly Marshall.

settled the dispute. At the same time a dangerous dispute arose between Germany and France over the Saar plebiscite which was to determine to which country the rich mining basin would belong. The league dispelled the danger of war by sending an international army to see that the vote was just. The territory returned peacefully to

Germany. Then came the League's biggest test -the Italian invasion of Ethiopia. A boycott on war supplies was laid down on Italy, but this did not prevent it from taking Ethiopia. With its prestige at the lowest ebb

in history, the league retrained from mixing in the Spanish civil wor. Despite these failures there are those, especially permanent league officials, who believe that the Geneva body's present ill health is morely temporary and that it will emerge again as a strong guardian of peace.

Nairobi, Mar. 5. ETAILS of the projected income tax law iblished in the official

The rate on the first £700 of income is 1s. in the pound. For the next £500, 1s. 6d.; for the next £1,500, 2s.; and for the remainder 2s. 6d. in the pound.

The rate for companies is the same as the rate for individuals except that the maximum rate is 2s, on chargeable profits exceeding £1,200. Shipping companies, banks insur-

ance companies, and other similar concerns are also chargeable. Allowances include a personal allowance of £350 for residents, and

£150 for non-residents. There in a further allowance of £150 for a wife; £75 for the first child, and £60 for other children up to a maximum of £255. The maximum allowance for dependants

Special allowances are provided for farmers with a view to encouraging the development of agriculture,-Reuter.

The proposal to introduce income tax into Kenya aroused bitter opposition among European residents. A compromise was eventually reached between the European elected members of the Legislature and the Colonial Secretary under which the necepted, on the basis of that in Rhodesia, to produce annually £43,000 instead of the £83,000 originally proposed.

CALIBRE DEPENDS ON JAPAN

TREATY LIMIT OF 14in. NOT YET ACCEPTED

By HECTOR C. BYWATER In spite of an official statement that the new British battleships will mount 14in guns, it is far from certain that this will be the armament of all the five vessels now building or projected. The first two, the King George V. and the Prince of Wales, were design-Negotiations with the British, he ed to carry 14in guns, and could not ings for these ships are already

under production. But the armament of the three vessels included in the new programme may consist of heavier guns.

The limit of 14in calibre imposed by last year's Naval Treaty becomes operative only if it is accepted by all the Powers, Japan, however, still withholds her acceptance, and has only six weeks longer in which to make up her mind.

If by that time she has failed to give an affirmative answer. The American Navy, it is officially onnounced, will at once order 16in guns for its projected battleships. In that event the British Navy might be compelled to follow suit. SACRIFICE OF SPEED

The rate of fire is appreciably higher with the 14in As our new battleships are restric-

ted to 35,000 tons, the weight of armament is a factor of prime importance. The heavier the armament the less margin will be left for armour protection and machinery. A battleship of this size mounting nine 10in. guns must either sacrifice adequate protection or be restricted to a. speed of at most 25 knots.

If nine 14in, guns were mounted there would be a saving in weight of 65 to 70 per cent. This could be applied to improving the protection and

# How 'Single' Whiskies get married

"Here in Scotland," said Johnnie Walker, "we don't marry the 'single' or separate whiskies until they have

matured for long years in the wood and are old enough to be blended as Johnnie Walker. The Blender then has a

large number of fully matured whiskies at his disposal, and from these he achieves that blend of perfect harmony which is Johnnie Walker.

"Every time you drink Johnnie Walker you realise how happy the marriage has been, and so you will always ask for Johnnie Walker by name."

Householders and property holders are informed that the Hongkong Government, through the Coronation Committee, is arranging suitable illuminations durthe Coronation celebrations. display will be somewhat similar, though a little more extensive, than that on the occasion of the Silver Jubilce. It is hoped that all property owners whose buildings are decorated under this scheme will make special and substantial contribution towards the cost in order that the charge to public funds may be reduced as much as possible.

Householders, especially those having residences in prominent positions, are cordially invited to co-operate in the illumination of the Colony, if only to the extent of a few lanterns, in order that there may be a first-class display worthy of the occasion.

Tokyo, Mar. 24. Replying to interpellations, the Japanese Foreign Minister to-day declared that the Government does not intend to negotiate a nonaggression pact with Russia.

He added that he thought American opinion favoured settlement of the Japanese immigration question and that British opinion supported the resumption of the Anglo-Japanese alliance. However, he did not state any definite intentions on either question.-United Press.

### ROPE COMPANY REPORTS KEEN COMPETITION

HOPE FOR EMPIRE PREFERENCE

Little benefit was being derived by the Hongkong Rope Manufacturing Co., Ltd., under the Empire pre-ference scheme, stated the Chairman (Mr. A. L. Shields) at the annual meeting of shareholders to-day. Mr. Shields reported a net profit of \$10,000 in comparison with a loss-of \$36,000 for 1935.

In moving the adoption of the report and accounts, Mr. Shields said; The result of the company's working for the past year, after charging depreciation and allowing for directors' and auditors' Fees, interest and commission to general managers, etc., shows a net profit of \$16,910.49. Al-though this profit is small some satis-faction is to be gained from a comparison with the figures for the previous year, when a less of some \$36,000 was recorded.

This profit added to the balance brought forward from 1935, makes a sum of \$43,065.68 at credit of profit and loss account, which your directors recommend be carried forward to

next year's account. When addressing you last year, I made reference to the severe competition with which we have had to contend. That competition has, if I may say, been intensified throughout the year, particularly in India, Burma and the Straits Settlements.

I regret having to say again that we are still deriving little benefit under the Empire preference scheme. The dlengkong General Chamber of Commerce submitted its views to Government on the subject of imperial preference between Hongkong and the Empire generally, and we hope the revision of the Ottawa agreements will obtain for this Company's products preferential treatment in Empire markets, particularly Canada, India and Burma.

INCREASED TURNOVER Our turnever for the year under review shows a marked improvement over that for the previous year, but the keen competition which we have had to meet has meant a reduction in

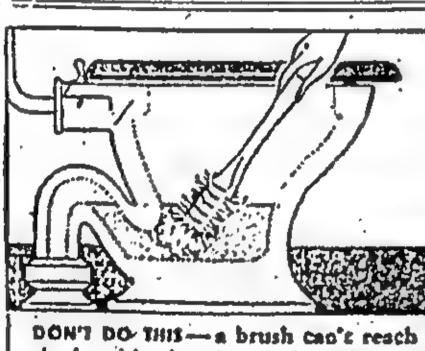

The total revenue earned from rents is \$40,585.93; an increase of \$9,212.36 on the figures recorded for the pre-vious, year. This is accounted for by the entire factory buildings at Mataukok having been let since June, 1936. The additional rent obtained therefrom will be fully gained in the accounts for the current year. As regards our 28 Chinese dwelling houses at Kennedy, Town, I regret that only 40 per cent, of the number of flats is occupied.

Turning to the balance sheet, you will see that the employees' provident fund is no longer under the heading creditors. This fund is now held in trust by the company in a separate account, the transfer to which has ocensioned the overdrawing of our bank

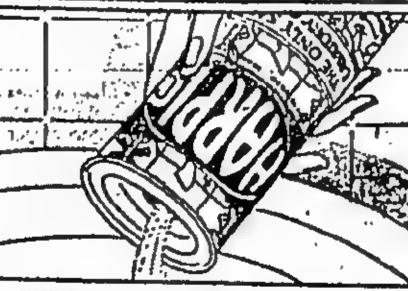

With regard to our investments, it will be noted that \$6,519.75 has been written off for 'depreciation and these now stand in the books' at 'market value on December 31, 1936.

As to the prospects for the present-year, I cannot say more than we have "started the year in a normal way and we hope that we shall continue to get a fair share of the business offering. Mr. J. P. Braga seconded the adoption of the reports and accounts, and the proposal was agreed to.

### COAL MINES PROBLEM

Although the British Govern-

ment recently registered its dis-

approval of a Labour plan for the reorganisation of the coa industry under public ownership and control, it has been disclosed that very far-reaching and a wholesome atmosphere in plans are under consideration for dealing with one of Britain's major industrial problems. Low as one grand cosmopolitan picwages, alarming accidents and chronic unemployment are still making their baneful effects felt, and the owners have come in for considerable criticism for failing to place the industry on a better footing. In spite of a subsidy of no less than £23,000,000 granted in 1925 and of the wide manifesto that the object of the powers granted for the control boatrace was not primarily to of output and the fixing of defeat the other crew but "to, minimum wages five years later, exhibit rowing in perfection." very little has been done to cut out the wasteful competition between owners and to evolve a real plan of reorganisation. The Labour proposals are that of the same point by Back Stop: the industry should be organised into one unit under the name of the Coal Corporation which would control the production, selling, marketing and treatment of coal. The Corporation would establish a Coal Marketing Board and a Food Consumers' Council, and would also have power to establish coal treatment plant so that clear and definite plans for coal utilisation might be systematically worked out for the country as a whole. The whole process from the hewing of coal to the manufacture of petrol is thodox crews on ours. And envisaged as one industry in which the profits would be equally distributed. It is also proposed to set up a Mines Compensation Commission, under which compensation to be paid to coal-owners would be the "fair value" on the appointed Review," he demands to know that jingle or anything like it. He honour". I knew I could bank on Peter. "That's Punch and Violet." day, whereas compensation royalty owners would be a sum equivalent to the amounts paid or payable to such owners in respect of such rights during the two years ending on the appointed day of one year's enjoyment of such rights, whichever should be the less. Royalty owners who had put mothing into the mine would not be entitled to the same compensation as coal-owners. Whether the plan is workable is a disputable point, but there can be no ques-

tion but that the wages paid to

miners are miserably low, in

Miss Colledge, neatly attired in black, executed her figures with a very serious air. The rink presented a picturesque scene as the gailycostumed competitors, some of whom appeared in outfits of striking design, practised on nearby ice while awaiting their turn to perform before the seven judges, each of different nationality. # SKATING

London, Mar. 2. At the end of the compulsory figures in the women's world figureskating championship, which began at the Empress Stadium, Earl's Court, yesterday, two sixteen-year-old British girls held the first two places. Miss Cecilia Colledge, British and European champion and favourite for the world's title, with a total of 1,498.7 marks, was 19.7 points in front of Miss Megan Taylor, of Manchester. Frk. ### MAXIMUM SCORED

The standard of skating was very high and the maximum of six marks was closely approached on many occasions. Miss Colledge accomplished a rare performance when, after executing a loop-change-loop, one judge held up the number six. This was the only time during the day that maximum points were given to any skater, although both Miss Colledge

Service to the State

The more virile peoples to which Major Rayner referred exist on the Continent of Europe.

- The young men of Germany, of Italy, of Russia, of Poland, of Czechoslovakia, are not only strong and healthy physically; they are also mentally poised and alert. They are imbued with a vitality that has to be seen to be fully realised; and they are proud and determined, and full of a faith in themselves and in their country and their leaders. Their first duty and their pre-eminent desire is to serve the State, not to demand "rights" and privileges from

the State. They give; they do not grab. You may call them mystics, fanatics, fools, dupes—anything you like. But do not forget that it was a similar spirit which animated the Elizabethan age and all those later eras when British men went forth to find new lands, new adventures, new

wealth, new homes. There was more love of country and pride of birth in the poorest emigrant who endured hardship in a "coffin ship" and yet more hardship after he landed in Canada or Australin, South Africa or New Zealand, than there is in the bulk of the young men of to-day who demand that the State should do everything for them because:"they did not ask to be born into an over-populated

country." On the same day when Major Rayner spoke in the House of Commons, a member on the other side of the House said:—"We cannot give young people hard physical training without looking after their bodily welfare, without giving them a chance to be healthy and well."

That is a typical statement of our generation. Feed and clotho and doctor the young people, and then, perhaps, they will condescend to do physical training to keep themselves

In the Continental countries I have mentioned the young people gladly and willingly volunteer for labour camps and such like. # 100,000, REFUGEES ON FLIGHT FROM TERROR OF MALAGA

### EYE-WITNESS TELLS OF HORROR

The bombing of Almeria, Spain, and the terrible 100-mile flight of 100,000 refugees from besieged Malaga before it fell to the Spanish rebels are described vividly in the following despatch written exclusively for the United Press by the first witness of both events to come out of the war zone. He is Dr. Norman Bethune, Montreal surgeon and head of the Spanish-American Blood Transfusion Institute in Madrid. By Dr. Norman Bethune

Paris, Mar. 5. One hundred thousand refugees fled Malaga to Almeria, Spain, only to be bombed by rebel planes in an attack that was, in my opinion, a deliberate attempt to

slaughter a defenceless population.
As if the terrible torture of their exodus was not enough, they were treated to the most horrible experience conceivable. Ten thousand children under 10 years old had been removed from Malaga. Hundreds died from hunger and cold during the long flight. Thousands crept forward ahead of a fleeing army with bloody rags on their feet.

Almeria was packed with refugees, bers of dying, particularly children, Houses and buildings were filled, along the road, we returned to restreet—about as wide as New York's besieged us, pleading for a ride, but street—was densely crowded by sleeping refugees.

Lady Stacy waits the outburst of her husband when he discovers her move, for she had previously agreed to give him her fortune if he permitted a divorce.

### Chapter Eighteen

ADY Stacy took quite a little delight out of the knowledge that she was the first and only woman member of a Lloyd's underwriting syndicate; she had a thrill when Jonathan, having accepted her fi-nancing only on condition that she advance the money as an invest-ment instead of as a loan to him, informed her that she now had the power, should her love for him ever husiness connected with the turn-ling over to her, by the trustees of her father's estate, of the vast in-heritance, kept her and her soll-citors so busy that the matter of fatering her suit for divorce against nord Sincy was necessarily set noide. Moreover it required con-elderable argument and a vast submission of figures and statistics to convince her solicitors that they could, conscientiously, advise her to ninko such a huge investment in a

After committing herself to austain Jonathan and John Angerstein in the former's patriotic and ambi-tions plans, Lady Stacy made a dis-turbing discovery. Her father's es-tate, by far the largest over left by any testator in England, was largely represented in huge textile mills in Manchester, in ships, raw cotton and manufactured goods. The textile enterprises were being carried on by competent managers and the cash accumulating in the hands of the trusters had come from the earnings of the estate since the death of Elizabeth's father. And the latter had provided for periodical distribution of his estate to his sole heir, so that when the first distribution of one quarter was made to Lady Stacy she was forced to borrow on the remaining three quarters of the inheritance due her. quarters of the inheritance due her, do the best he could now and exist which was to be paid over a period of fifteen years. So she made the investment with a light heart, figurely on a dole from his wife, investment with a light heart, figurely on a dole from his wife, in the hour of victory. Even his womt enemies could not deny that Lord Stacy was a prompt and energetic collector. When a month had passed and he was not served with the summons and complaint in action, he called upon Elizabeth to inquire the reason for the delay. Also, he was not for the delay. Also, he was planned to ask for an advance. His planned to ask for an advance. His creditors were again threatening in and the imminence of a debt of the manufacture of the first of the collector. # PAGE HEROIC CHINESE ALHAMBRA BOSUN SAVES ALL ABOARD H.K. SHIP

Climbs to Cliff Edge From Wreck By Bridge Of Oars

A Staff Representative)

Survivors of the wrecked Indo-China Steam Navigation Company's steamer Hopsang, which was totally wrecked off the southern tip of Formosa, have arrived in Hongkong. They owe their lives to the Chinese bosun.

Early this morning they told me story of their remarkable escape from death.

The Hopsang went ashore in a blinding rainstorm in a Japanese prohibited area, about 15 miles from Koshun. Young Student When it grounded on jagged rocks, the bows of the ship were less than 15 feet from the wall of a towering mountainous precipice. But between the ship and safety was a white maelstrom of churning water, in which no-one could possibly have lived.

Heavy seas continually broke over the doomed vessel and it seemed likely that the entire crew of 72-including eight British officers and engineers-would have to remain aboard.

But as the heavy seas continued to pound the vessel a desperate plan was resolved upon. Several oars were lashed together to provide a bridge between the ship and a ledge on the precipice.

Along this frail spar the Chinese bosun volunteered to attempt the peritous climb shore-

A thin wire was tied around his waist and, in blinding rain, with the crests of the angry waves engulfing him, he commenced his desperate crawl.

After a nightmare journey the man reached safety and allowing himself only sufficient time to regain his breath, hauled in a hawser tled to the end of his wire.

The hawser was secured to the mountain-side and then, one by one, the crew of the wrecked Hopsang swung hand over hand to the shore. When they had all reached safety it was decided to try and obtain some provisions and a tarpaulin as shelter against the terrific, biting rain. Two men returned to the ship along the hawser and succeeded in rigging up a temporary breeches buoy, along which they sent ashore the requirements of those ashore.

Early next morning the survivors walked overland to Koshun, Japanese military officers and police meeting monarchs had a long talk together them before they arrived at the during the evening.
